				Date			T. Cases detect error (0,1)	Full Error described (0,2)	Partial Error described (0,1)	False Errors described (0-n)	Confidence (1-5)	Answer Key (True Bugs)		
Task	Tool	Time Limit	Start Time (h:mm:ss)	End Time (h:mm:ss)	Elapsed (mm:ss)							Generalized Input	Output (don't ask for this)	Rationale (don't ask for this!)
Tutorial	Hypothesis	n/a			00:00									
11	Hypothesis	0:30:00		0:30:00	30:00							n>1	Matrix is all 1s	Rows ref the same array
12	Hypothesis	0:30:00		0:30:00	30:00							str1 contains letters that must be deleted	Wrong count of edits (missing deletions)	Missing increment of edit counter on deletes
Researcher Instructions:			TOTALS:	**Hypothesis**	00:00	0	0	0	0	0				
Make a copy of the template.				**- Tutorial**	00:00									
- The file name is the participant id.														
Fill out row 2 (participant id, date)														
Only fill values in the cells that are white: grey cells are read-only														
Exclude any "false" errors the participant "finds" where the input values are outside the allowed input range
